

Abstract of the Disclosure

The invention provides a personal introduction system for participating users that allows users to gain access to information about other users after an initial contact. The system according to the invention may also be configured to allow users to gain access to only those other users for which a mutual attraction is indicated. The invention allows at least two persons coming into contact with one another to be made aware of a mutual attraction, and to be given a mechanism for establishing contact with one another once the mutual attraction is confirmed by the introduction system.
